

OPEN AIR PHONE

Economy & Efficiency

This compact and weatherproof telephone is the ideal choice when a heavy duty phone is needed. The rugged telephone fits in any public or industrial locations such as car park, cab stand, production hall, warehouse, events...

Easy in Use

The Open-Air-Phone can be used as a regular telephone or as a telephone without keypad. The Open-Air-Phone can be connected to the mobile network when an optional GSM-module is built-in the unit.
